

**PRELIMINARY PLAN REQUIREMENTS CHECKLIST**  
**Bureau of Resource Management/Water Resource Protection**

Date: \_\_\_\_\_ Project: \_\_\_\_\_ File Number: \_\_\_\_\_

1. \_\_\_\_\_ Provide geotechnical data that supports the use of stormwater infiltration practices.
2. \_\_\_\_\_ Provide justification that shows how the design minimizes the number and extent of stream buffer crossings (refer to pages 19 – 20 in the *Water Resource Management Manual* for specific design criteria).
3. \_\_\_\_\_ Provide documentation regarding Community Water Supply Development, per Section IV.B of the Water Resource Management Manual (if applicable).
4. \_\_\_\_\_ If the subdivision is commercial or industrial in nature, provide documentation regarding compliance with Section IV.C of the Water Resource Management Manual.
5. \_\_\_\_\_ Ensure all storm drain outfalls conform to discharge requirements found in Section IV.C.3.c of the Water Resource Management Manual.
